

POINT TO POINT - INDEX OF ARTICLES BY TITLE

Title	Author	Season	Year	Page
"Hydrus" - a new HF Receiving Equipment	PL Painter	April	1968	82
"Thin Line" Tropospheric Scatter	AD Currah	July	1968	158
A 100kW L.F. Linear Amplifier 40kHz - 160kHz	CE Brown	October	1967	257
A 120Mb/s Digital Transmission System on Coaxial Cable	PJ Wakeling	January	1974	18
A Breakthrough in HF Receiver Design	BM Sosin	January	1970	4
A Comparison between Alternative HF Telegraph Systems	JV Beard (joint author)	June	1960	20
A Comparison between Alternative HF Telegraph Systems	AJ Wheeldon	June	1960	20
A Comparison of various Telegraph systems	JV Beard	July	1969	157
A Data Gathering system	WC Mills	January	1972	15
A European Datal Network	JR Farrar	April	1968	109
A Low-Frequency High-Stability Telegraph Drive	REJ Gerard	April	1967	108
A Low-speed Digital Multiplexor	AC Jones	April	1970	85
A Manual Ionospheric Prediction Method used for System Planning	LW Barclay	January	1970	30
A New 100W Solid-state Transmitter and Receiver	JA Gould	April	1970	65
A New Approach to HF Transmitting Station Design	WJ Morcom	October	1963	25
A New Approach to V.F.T. Design	AR Kennedy (joint author)	January	1974	47
A New Approach to V.F.T. Design	R Wilmott (joint author)	January	1974	47
A Newspaper for Q.E.2 (<i>written by Communications Manager, Daily Telegraph</i>)	A Rawcliffe	May	1971	117
A Note on Satellite Communications	M Telford	February	1961	6
A Portable VHF Tracing and Measuring Set	JH Ainley	January	1972	37
A Programmable HF Drive	MH Hopcraft	September	1972	127
A Pulse Code Modulation system for Junction Telephone Circuits - Part II	AD Stevens	June	1966	40
A Report on Trials of a Ship-Shore Data Transmission System	BD Guest (joint author)	October	1964	5
A Report on Trials of a Ship-Shore Data Transmission System	JG Thomas (joint author)	October	1964	5
A Tropospheric Scatter Link over a 200 mile Path	GL Grisdale (joint author)	October	1960	34
A Tropospheric Scatter Link over a 200 mile Path	DA Paynter	October	1960	34
A Tropospheric Scatter System	An Editor	October	1958	20
A Versatile Panoramic Display Unit for 10kHz - 60MHz	GBL Woodburn	September	1971	157
Aerial Steering in Satellite Communication Systems - Part 1	E Hoare	April	1967	139
Aerial Steering in Satellite Communication Systems - Part 2	E Hoare	July	1967	186
Aerial Supporting Structures	PJ Ward	February	1960	24
An Automativ Error-Correction System for Unidirectional HF Teleprinter Circuits	PR Keller (joint author)	June	1963	14
An Introduction to Micoelectronics	S Forte	October	1964	23
An Introduction to 'Rural Radio'	CB Wooster	October	1957	24
An Introduction to Telegraph Message Switching	EH Rose	June	1964	17
An Introduction to Telephone Channelling	CB Wooster	February	1959	5
Antenna Systems for LF Transmitters	PW Jinkings	January	1971	32

POINT TO POINT - INDEX OF ARTICLES BY TITLE

Title	Author	Season	Year	Page
Apollo Communications - The Installation on Ascension Island	KU Bolwell	October	1967	237
Application for Ferrite Resonance Isolators	EF Schelisch	June	1960	4
Auto AC Power Supplies for Telecommunications, with reference to No-Break systems	KL Ives	October	1958	6
Automatic Error Correction on HF Telegraph Circuits	PR Keller	February	1958	25
Automatic Power Plant for Telecommunications Installations	KJ Bladon	October	1957	5
Automation in Message Switching	EH Rose	July	1967	205
C.C.I.R Study Group Reviews	G Millington (joiny author)	October	1959	17
C.C.I.R Study Group Reviews	N Lea (joint author)	October	1959	17
C.C.I.R Study Group Reviews	S Fedida (joint author)	October	1959	17
C.C.I.R Study Group Reviews	WAE Quilter (joint author)	October	1959	17
C.C.I.R Study Group Reviews	VJ Cooper (joint author)	October	1959	17
C.C.I.R Study Group Reviews	Mr McDonald (joint author)	October	1959	17
C.C.I.R Study Group Reviews	An Editor	January	1967	9
C.M.T.T. - Television Transmisssion	An Editor	January	1967	91
Communication Equipment for a Data Gathering System	LF Hall	September	1971	145
Communication in Esso Europe	K Green	August	1970	155
Communication with Ships and Aircraft through Satellites	GL Grisdale	May	1972	64
Communications Potentialities of Tropospheric Scatter	M Telford	February	1957	29
Comparison of 170 c/s-spaced FM and Two-tone VFT Systems on HF Radio Circuit	HL Hayward	June	1964	5
Cooled Parametric Amplifiers for space communicatoions earth stations	MJB Scanlan	July	1969	175
Cost Effective 1kW HF Transmitter	EG Owen	January	1973	15
Data Communication Satellite System	W Dobson	September	1972	151
Data transmission	R Rowland	October	1966	32
Data Transmission on Digital Link Sections	AD Stevens	April	1969	91
Design of a 2.5MHz Frequency Standard	J Dowsett	January	1968	38
Development of Autospec Mark II	FW Douglas (joint author)	May	1971	103
Development of Autospec Mark II	PT Hercus (joint author)	May	1971	103
Developments in Automatic Testing - Part 1	R Kitchen	October	1969	210
Developments in Automatic Testing - Part 2	R Kitchen	January	1970	15
Earth Satellites as a Communications Medium	WL Wright	June	1966	4
Earth Stations - Operator's Viewpoint	H Madigan	September	1972	139
Earth Terminal Aerials for Satellite Communications Systems	DH Shinn	February	1966	40
Economic Planning of Satellite Earth Station Equipment	HF Haagensen	January	1969	37
Education and Training in Industry	FRJ Langridge	October	1966	21
Education and Training in Industry - Part 2	FRJ Langridge	July	1967	170
Equatorial Sunset Effect	AM Humby	June	1960	11
Errors in Radiotelegraphy	JA Smale	February	1960	4

POINT TO POINT - INDEX OF ARTICLES BY TITLE

Title	Author	Season	Year	Page
Extended Range VHF	GC Rider	February	1964	4
Factors Affecting Reliability	JV Beard	October	1969	200
Fifty Years Ago	JA Smale	October	1963	5
Fully-automatic Message Switching Systems - design considerations	JH Englefield	January	1969	27
Fully-automatic Message-switching systems - the system concept	AJ Gibson	July	1969	164
Ground Station Aerials for Satellite Communications	JK Todd	June	1962	30
Guglielmo Marconi and Communications beyond the Horizon	GA Isted	February	1958	5
HF Predictions and Ionospheric Forecasting	LW Barclay	January	1973	25
HF Receiver Reception Failure Factor	BM Sosin	January	1974	4
HF Transmitters and Aerials - the Problem of their Interconnection	SU Nolan	October	1961	32
High Capacity Digital Systems	ER Brigham	August	1970	132
High Tension Rectifiers for High Power Transmitters	BE Fox	February	1963	16
Highly Portable Troposcatter Terminals	EW Anderson	September	1972	116
Improved General Purpose Communication Receiver	GJ Mellor (joint author)	January	1974	31
Improved General Purpose Communication Receiver	RT Sutton (joint author)	January	1974	31
Index - Volume 11	An Editor	October	1967	280
Industry and Data Collection	JR Farrar	October	1968	265
Integrated Receiver for Global and Domestic Earth Terminals	JD Rogers	September	1971	177
Introduction to Channelling Systems HF Radio Circuits	AW Cole	February	1957	5
Linear Amplifier Transmitters	WJ Morcom	October	1956	7
Logarithmic Aerials in Communications Systems	MF Radford (joint author)	October	1962	24
Logarithmic Aerials in Communications Systems	EW Woloszczuk (joint author)	October	1962	24
Log-periodic Dipole Arrays	AGP Boswell	May	1973	64
Long Range Planning of Research and Development	AW Cole	April	1969	115
Maintaining the Performance of I.S.B. Transmitters	VO Stokes	September	1971	169
Maintenance and Spares Support - Satellite Earth Stations	AJ Wheeldon	October	1968	237
Management Network Analysis Techniques - Part 1	BS Lamb	January	1973	35
Management Network Analysis Techniques - Part 2	BS Lamb	May	1973	82
Management Network Analysis Techniques - Part 3	BS Lamb	September	1973	140
Marconidata Modems for 1200 Baud Operation	G Montaguti	April	1968	97
Martex Engineering and Maintenance Facility	RW Hilsley	January	1972	47
Message-switching Centres - Installation and Maintenance	CP Freeman	April	1970	74
Modems for Data Transmission	JK Todd	January	1968	15
Modular Tropospheric Scatter Equipment	RP Rowe	May	1971	80
Modulation Methods for Multi-station Satellite Communication systems	WL Wright	February	1963	2
Modulation Methods for Multi-Station Satellite Communication Systems	WL Wright (joint author)	February	1963	27
Monitoring ARQ Systems	CP Freeman	July	1968	169

POINT TO POINT - INDEX OF ARTICLES BY TITLE

Title	Author	Season	Year	Page
Multichannel VF Telegraph Systems for HF Networks	JV Beard	October	1958	29
National Telecommunications Network Planning	An Editor	June	1961	4
Naval Communications	RLJ Awcock (joint author)	October	1968	198
Naval Communications	A Bell (joint author)	October	1968	198
Naval Communications	JA Gould (joint author)	October	1968	198
Non-Reciprocal Ferrite Devices at Microwave Frequencies	JA Penney	April	1967	121
Off-shore Communications for Pipelines	EW Anderson	January	1973	4
On Channel Spacing	An Editor	October	1957	19
On Means to Improve Frequency Stability	An Editor	October	1961	46
On the end of a Chapter	An Editor	October	1960	4
On the Rating of SSB and ISB Transmitters	An Editor	June	1959	24
On the Scale Modelling of Aerials	MF Radford	June	1965	4
On the use of Ferrites in Wideband HF Transformers	An Editor	June	1957	22
Organization Committee	An Editor	January	1967	95
Parametric Amplifiers	R Rowland (joint author)	February	1962	24
Parametric Amplifiers	PJ Cott (joint author)	February	1962	24
Performance and Maintenance of the Nigeria VHF Trunk Network	LA Summerland	June	1961	21
Performance Measurement of Tropospheric Scatter Systems	EW Anderson	October	1969	219
Peripheral Points: Tunnel Diode Amplifiers	An Editor	June	1965	33
Planning an HF Transmission Circuit	FR East	February	1966	26
Planning PCM into the British Telephone Network	E Jeynes	May	1972	75
Points at Issue	Walter Lyons	February	1961	11
